PROFESSIONAL PROFILE

Frontend Engineer with **4+ years** building web and mobile products in React, Next.js, TypeScript and React Native for B2B and B2C companies in SaaS and e-commerce.

At Alfred, a fleet management SaaS operating in Colombia and Mexico, promoted from Junior to Semi-Senior in 9 months. Works in a shared Next.js monorepo and improved Core Web Vitals across the company's web apps. Before that, as the sole developer at an auto parts distributor, built an e-commerce platform end to end and grew monthly orders 30% with real-time stock visibility. At a software agency, delivered frontend for 6 client products, including Würth, migrated a live app from Ionic-Angular to React Native, and cut report delivery from 7 days to 1.

Self-taught engineer with a background in international business, which shapes how he works: he starts from what the business needs to measure before writing code. Works daily with Claude Code. **Bilingual English/Spanish**

SKILLS & TECH STACK

- Frontend: TypeScript, JavaScript, React, Next.js, HTML, CSS, Tailwind CSS, Redux, Zustand, HeroUI, MUI, PrimeReact, Angular, Three.js, Framer Motion
- Mobile: React Native, Flutter, Ionic
- Practices: design systems, monorepo, Core Web Vitals, accessibility, mobile-first
- Testing: Jest, Playwright
- Backend & Data: Node.js, Express.js, REST APIs, MongoDB, PostgreSQL, Firebase, Prisma
- Tools & AI: Git, GitHub, Claude Code, Cursor, ChatGPT

PROFESSIONAL EXPERIENCE

Alfred SAS | Remote | Apr 2025 – Present

Mobility & fleet management SaaS | 75+ employees | B2B / B2C | 2 countries

Semi-Senior Frontend Developer | Jan 2026 – Present

- Promoted for autonomous feature delivery; led UI/UX improvements and contributed to architectural decisions across Next.js, React Native and Flutter projects.
- Developed and maintained 2 B2B platforms in a shared Next.js monorepo (fleet management app and internal support tool for operations) as primary focus, using TypeScript, Tailwind CSS, HeroUI and Zustand.
- Improved Core Web Vitals across monorepo applications by optimizing loading performance, responsiveness, and rendering efficiency.
- Built key driver-facing features for the B2B Drivers mobile app (React Native) and contributed to the B2C Customers app for end customers (Flutter).
- Initiated and developed a Flutter pilot app to propose the migration and modernization of an existing React-based shops management app.
- Recognized with the team's highest workplace competencies rating (95%) and a company values award.

Junior Frontend Developer | Apr 2025 – Jan 2026

- Built and maintained the Shop Allies web app (React, Redux, CSS) for partner merchants, streamlining their operational workflows.

- Developed frontend interfaces and features, fixed bugs and collaborated with design and backend teams, delivering ahead of schedule.

Frontend Developer | Evolutecc | Hybrid | Jan 2024 – Apr 2025
Technology/Software | 20+ employees | B2B | operations in 3+ countries

- Delivered frontend for **6** client products across web and mobile, including ERP, e-commerce, social and leadership-assessment platforms, using React, Next.js and Ionic.
- Migrated a mobile app's frontend from Ionic-Angular to React Native (Uflou).
- Built a multi-platform e-commerce frontend with Ionic for Würth, a global industrial supplier.
- Developed Next.js frontends for an ERP system (Doxa) and a leadership evaluation platform (Litsight).
- Streamlined the reporting process for pending and new reports, reducing delivery time from 7 days to 1 day.
- Coordinated with backend and QA teams to resolve production issues within hours.

Full Stack Developer | Comercializadora OB | Hybrid | Jan 2023 – Jan 2024
Commerce/wholesale | 5+ employees | B2B | sales in 22 cities

- Owned architecture and delivery end to end as the sole developer, from database design to production.
- Designed and built a full e-commerce platform with the MERN stack (MongoDB, Express, React, Node.js) and Next.js, plus an admin dashboard for products, orders, users and sales statistics.
- Increased monthly orders by **30%** (62 to 81) by adding real-time stock visibility, with automatic stock updates on each order and cancellation.
- Integrated Mercado Pago API for payments, NextAuth for user authentication and Nodemailer for order notifications.
- Eliminated manual portfolio entry by integrating it directly into the application, and automated catalog generation with one-click PDF export.

Freelance - June 2022 – January 2023

Designed and developed an informational website using HTML and CSS, later evolving into a full e-commerce solution built with Next.js.

PROJECTS

- **Wurth:** e-commerce with CRM, API and payment integration with React, Ionic, Zustand and Prime-react.
- **Uflou:** sustainability tracking app with React native, nativewind and tracking plugin.
- **Retail Store:** full e-commerce platform with Next.js, Tailwind CSS, Zustand, Drizzle ORM and PrimeReact, including Wompi payments, SEO optimization and Meta Pixel tracking.
- **Collection App:** billing tool built with TanStack Start, Prisma and Tailwind CSS for invoice management, monthly seller commissions and client account statements.
- **3D Portfolio:** interactive portfolio with React, Three.js and Framer Motion (portfolio-3d-andres.vercel.app).
- **AI Summarizer:** web app using the OpenAI API to summarize articles from a URL, with search history and clipboard sharing (React, Redux, Tailwind CSS).

EDUCATION & TRAINING

B.A. in International Business | Universidad del Norte, Colombia | 2011

Claude Code in Action | Anthropic | 2026 | Credential ID: 29adivetqab4
Additional training: React, Next.js, Flutter and JavaScript, HTML (Udemy, JavaScript Mastery, 2022–2025)
